.. Not available. PPP is purchasing power parity; an international dollar has the same purchasing power over GNI as a U.S. dollar has in the United States.

Note: Rankings include all 210 World Bank Atlas economies, but only those with confirmed GNI per capita estimates or those that rank among the top twenty for the Atlas method are shown in rank order. Figures in italics are for 2007 or 2006. a. 2008 data not available; ranking is approximate. b. Data are for the area controlled by the Government of the Republic of Cyprus. c. Based on figures extrapolated from the 2005 International Comparison Program benchmark estimates. d. Includes Former Spanish Sahara. e. Excludes Transnistria. f. Covers mainland Tanzania only. g. Estimated to be upper middle income (\$3,856 to \$11,905). h. Estimated to be high income (\$11,906 or more). i. Estimated to be low income (\$975 or less). j. Estimated to be lower middle income (\$976 to \$3,855).
